

# Brainstorming Session

January 3, 2013

Our class spent a good portion of a recent class "Brainstorming" all the things we think we know about bananas. Here is the lists of items students suggested.

1. Grow in bunches
2. Green when not ripe
3. Meat ripens to a pale yellow color
4. Have tiny seeds which are eaten
5. Grow in tropical regions
6. They are imported to our Kansas City region
7. Starch
8. Potassium
9. Have a crescent moon shape
10. Color – green to yellow to yellow with brown spots, to brown, to black
11. Grow on trees
12. Help you sleep \ helps with cramping
13. Used in other foods / desserts / breads
14. Has a peel – smooth to the touch
15. Come in different sizes
